**Company Profile:**

Edwards Lifesciences, is the global leader in patient-focused medical innovations for structural heart disease, as well as critical care and surgical monitoring. Driven by a passion to help patients, the company collaborates with the world's leading clinicians and researchers to address unmet healthcare needs, working to improve patient outcomes and enhance lives.

**Products:**

- The Edwards SAPIEN family of valves, including Edwards SAPIEN XT and SAPIEN 3 transcatheter aortic heart valves and their respective delivery systems - used to treat heart valve disease using catheter-based approaches for certain patients deemed at high risk for traditional open-heart surgery

- The FloTrac Sensor - a practical, reliable, and minimally-invasive solution that provides dynamic and flow-based hemodynamic parameters through an existing arterial line
- The Edwards Clear Sight system - a non-invasive hemodynamic monitoring system that offers advanced hemodynamic information, comparable to that provided by minimally invasive catheters, using an inflatable finger cuff

**Objectives(s) at Health Achieve 2016:**

- To meet with purchasing organizations for hospitals; senior hospital administrators and provincial ministry of health senior officials
